

Transfix part 5 by needle through holes in part 6 in right angle to part 5. Insert each a4 with tube to holes of parts 5 & 6 and fold its ends as shown on diagram.

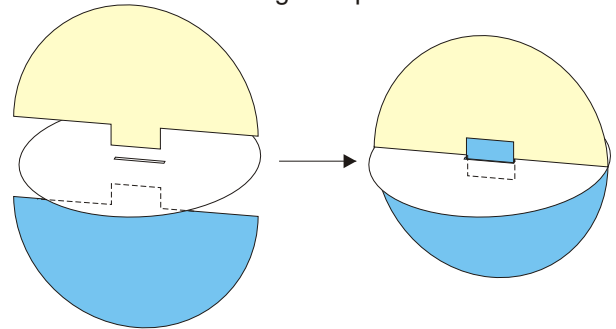

Capsule

Assembling of aerals

Assembling of capsule frame

Assembling of Capsule (use PVA glue!)

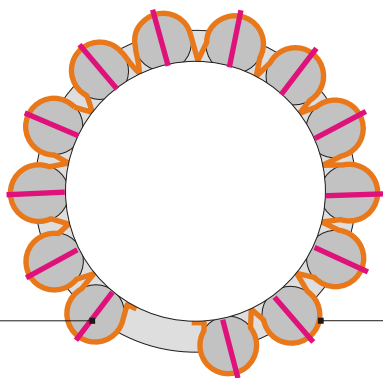

- a - First glue s2 onto s2a, s4 onto s4a and s6 onto s6a
- b - Assembly hemisphere from s1 to s6
- c - Unroll junctions on the inside of hemisphere by relatively small hard ball
- d - Glue s8 onto s8a and s10 onto s10a
- e - Assembly parts from s10 to s7. Unroll junctions
- f - Insert capsule frame
- g - Assembly all to make the sphere.

It is advisable to build Capsule **without a break**.

h - Glue hatches.

After glue dry up, it should caulk a chinks in joints if need and paint surface by silver spray.

The rest parts of Capsule should be glued after spray dry up.

glue "bands" over gas-balloons
1 long "silver" strip 1mm x 280 mm
13 short "silver" strips 1mm x 22 mm
